

Student Quick Guide

Taking CLEP with Proctortrack

Proctortrack Registration

- After purchasing your CLEP exam, you'll receive an email with your Ticket ID and a Proctortrack registration link.
- Click the [link](#) to create your Proctortrack account using your first name, last name, Ticket ID, email, and a password.
- Within 24 hours, you'll get a confirmation email from Proctortrack—be sure to verify your email.
- Once confirmed, [login](#) with your registered email and password to proceed with your exam setup.

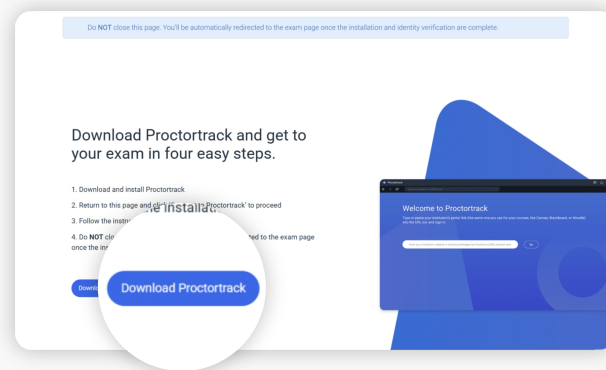

How it works

01

Download Proctortrack

Sign into the [Proctortrack Dashboard](#) from your computer and select your CLEP exam. You will be redirected to the Proctortrack Download page.

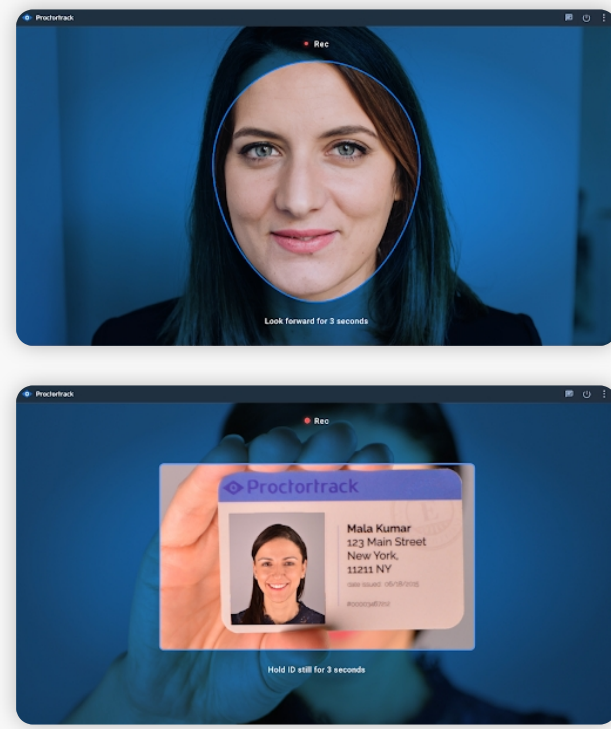

02

Identity Verification

Download and install Proctortrack on the machine you will use for your CLEP exam. The app will guide you through the Onboarding process to verify your identity (Face & ID scan).

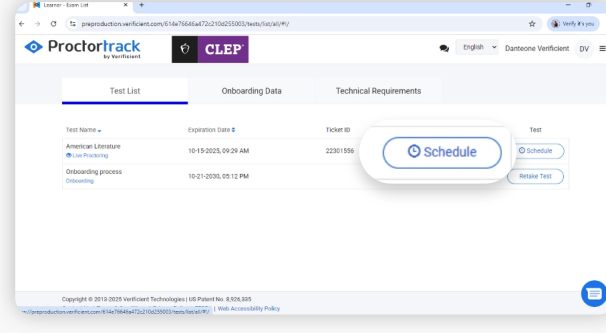

As part of the **Onboarding process**, you must also download the Proctortrack app on your mobile phone (from the App Store or Google Play). The Onboarding process helps orient you to the test day experience.

03

Schedule

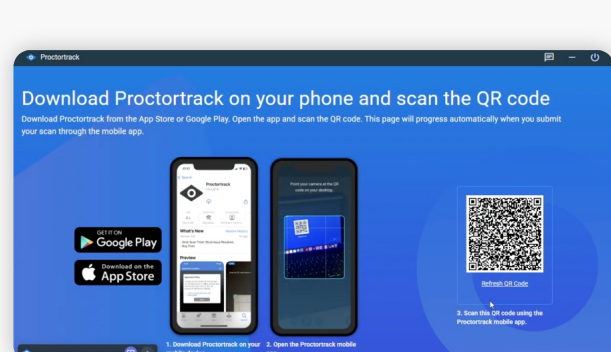

Once the Onboarding process has been approved by Proctortrack, you may schedule your CLEP exam.

04

Proctortrack Mobile App

Download and install the Proctortrack Mobile App on your phone. Using the app, your phone's camera will be used to scan your testing area and serve as a second camera during testing.

05

Room scan using mobile phone

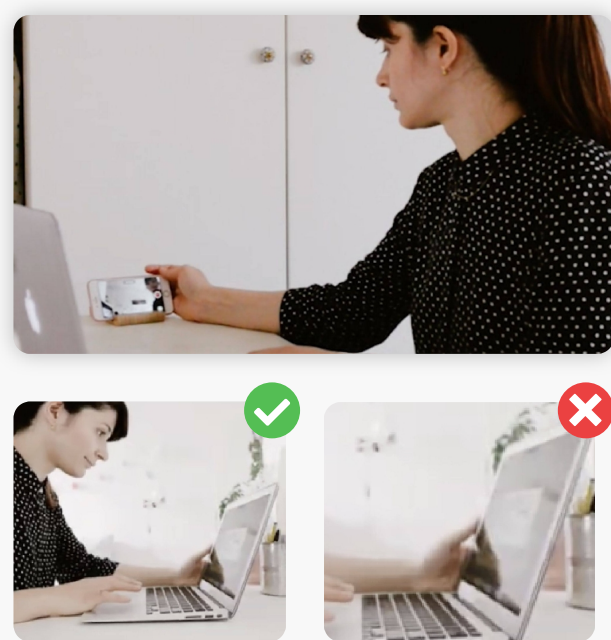

On test day, your proctor will connect with you via the chat function of the Proctortrack app and will guide you through the room scan steps.

06

Dual Camera Setup

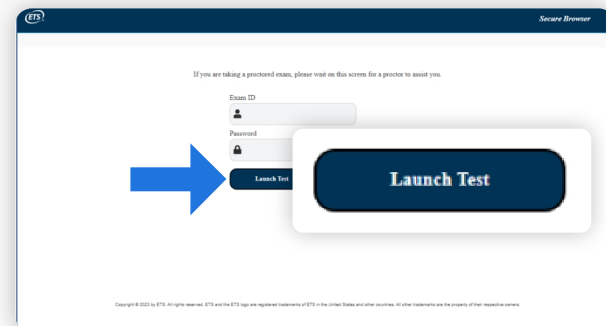

Once the room scan is approved by the proctor, you must position your phone so that your face, desk, and monitor are clearly visible. When positioned properly, the proctor will approve the view coming from your mobile phone and you will be able to proceed. [Learn more about CLEP requirements for your testing space.](#)

07

Download / Launch Unify and begin your test

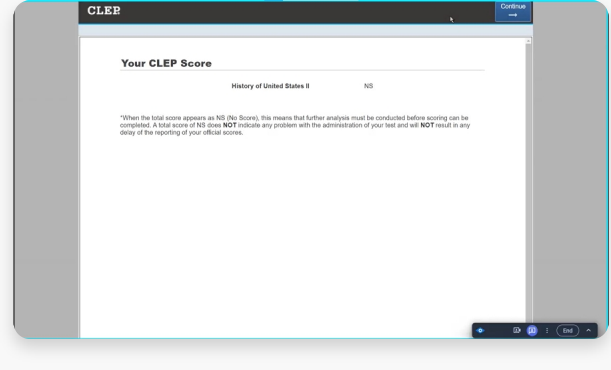

If you haven't already downloaded the ETS Secure Browser (Unify), you can download and launch Unify from the ETS download page as instructed on the screen.

08

Score Display

If you choose to report scores, they will be displayed on your screen immediately after completing an exam, except for College Composition and Spanish with Writing.

09

End Proctoring

Once you've completed your test, contact your proctor via chat and they will provide instructions on how to end your test session.
